Gravity

Maximum floorspace

Uses

The campus is sub-divided into different zones, signifying the different types of uses. While the distribution of uses is flexible and will be market driven, the description of Development for the Local Development Order (LDO) sets out a maximum floorspace for each class across the campus.

Use	Definition	Limitations
Advanced Manufacturing		
B2 / B8 / E (a) to (g) / Sui Generis	General Industrial Use	Total GEA up to 1,000,000 m²
Supporting Employment Uses		
B2	General Industrial Use	Total GEA of up to 65,000 m²
B8	Storage or Distribution	
E (a) to (g)	Commercial, Business and Service	
Sui Generis	Uses which do not fall within the specified use classes above	
Supporting Uses		
C1	Hotels, boarding and guest houses where no significant element of care is provided	Total GEA up to 35,000 m²
C2	Residential Institutions	
E (a) to (g)	Commercial, Business and Service	
F	Local Community and Learning	
C3	Dwelling houses	Up to 750 dwellings

Whether you are a globally-established brand, corporate or start-up, Gravity offers you:

Energy

- + Renewable and low carbon on-site energy infrastructure and building energy management provided by our global partner - E.ON .

Water Abstraction Licenses

- + Large scale water abstraction from River Huntspill and King Sedgemoor Drain.

Dark Fibre

- + High speed, resilient site specific dark fibre.

Network Infrastructure

- + Network infrastructure for hyper-integration between technology, building and spaces.

On-site infrastructure

Clean Growth

Is your business on track for Net Zero?

We are proud to be bringing to fruition one of the most sustainable smart campuses in Europe.

At Gravity, you can make a clear statement that you are reducing the impact your business has on the climate by operating in a clean, low carbon campus.

Join like-minded businesses and people that share our vision of healthier and happier places to live and work; those who consciously want to lower their consumption and spend on energy.

Hotel

The epicentre for transport and talent

Strategically located in the South West of the UK and connected by road, rail, deep sea port and international airports, Gravity has unrivalled connectivity and benefits from access to a world-class regional talent pool with expertise in innovation and Clean Growth sectors.

Tomorrow's talent on your doorstep

Change is the new normal for business. To meet this challenge, it is vital you have access to a talented, skilled and adaptable workforce. Global tech companies are currently flocking to locations near world-class educational facilities in the UK.

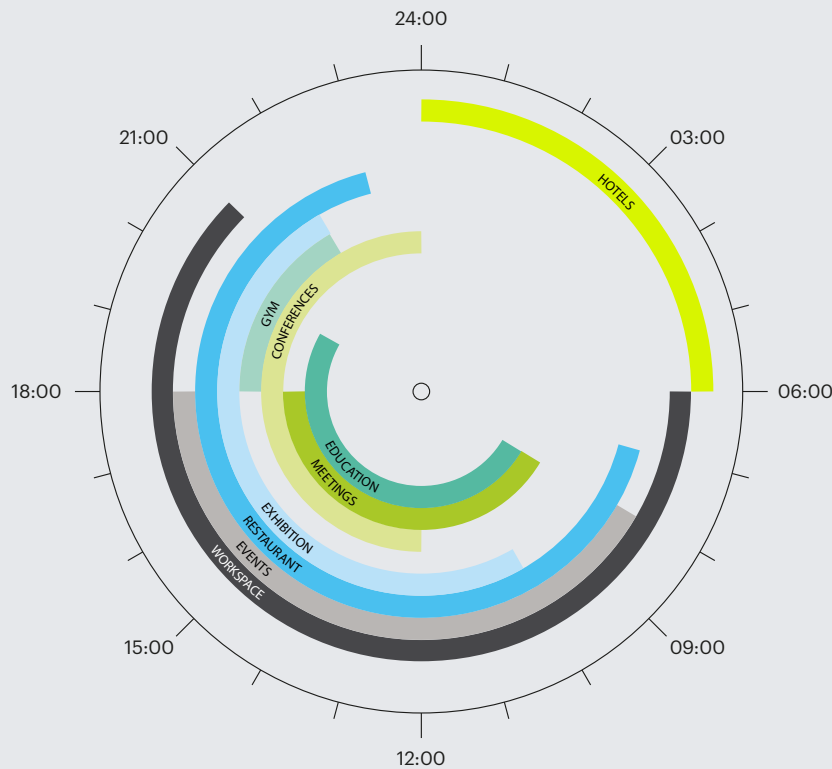

Ideally positioned to benefit from a strong supply of skilled employees and world-leading research universities. Gravity is within easy commuting distance from:

- + University of Bristol
- + University of the West of England
- + University of Bath
- + University of Exeter
- + Bridgwater and Taunton College

Enriching daily life

A home for tomorrow's workforce, Gravity is a low carbon, high-tech environment with places to work, eat, socialise, relax and exercise.

Campus life

We are creating a smart campus bursting with business acumen and with a serious commitment to low carbon. Throw in incredible facilities surrounded by natural beauty and you have one of the most amazing places to work in Europe.

Gravity – our vision

To meet the challenges of the future, the UK must shift to a cleaner economy that embraces innovation by creating spaces that allow forward-thinking companies and local communities to thrive. We want to seize this transformation by enhancing the experiences for businesses by providing a smarter, more sustainable and operationally efficient campus.

That is why we created Gravity – a clean, smart campus where new businesses can grow and established giants can break the mould. Ideally located in Bridgwater, Somerset, with direct access to the M5 and accessible by rail, air and sea, the site will offer over 616 acres, with opportunities for up to millions of sq ft of scalable, flexible and shared working space.

There is no other UK site ready to be developed at such scale and speed, with everything in place for tomorrow’s innovators to grow today. With its on-site clean energy solutions, dark fibre, excellent transport links, accessible talent pool and knowledge economy – including four top-tier universities close by, Gravity provides occupiers with the ability to build, expand and develop faster and more efficiently.

Gravity will be a beacon for evolving a clean growth economy in the South West. Join us as we bring forward the future, naturally.
