

Look Ahead - October 2023

The Gravity team continues to work across many workstreams to ensure that the site is ready for mobilisation and implementation of a large-scale advanced manufacturing facility. All workstreams listed in our [Summer 2023 Look Ahead](#) document are still ongoing.

Our primary update is to notify local communities that in accordance with our planning permission that **on site works will be taking place on Saturdays 8am - 6pm across the month of October**, from Saturday 7th through till Saturday 28th.

Saturday working (7th, 14th, 21st, 28th)

- Due to fluctuating weather conditions throughout the year, Gravity aims to maximise the use of the remaining fair weather.
- All on-site activities strictly comply with Condition 2 of the planning permission ref: 42/22/00007. No work is being conducted within 500 meters of any residential property.
- Somerset Council is fully informed about the temporary adjustments to the working hours on-site for October.
- No HGV deliveries or imports are scheduled during these days. Work will be halted if weather conditions are not favourable.

On site works

- Ongoing processing of onsite materials
- Breaking up of concrete in the ground and cutting and filling to achieve plateau levels
- Site preparation activities remain ongoing
- Site maintenance works comprising site security, road cleaning, grass mowing, fence repairs are continuing as required.
